

Broadband Connection  
Unlimited Possibilities

## Demand More From Your Broadband With WiLine

### ABOUT US

WiLine is a provider of fast, flexible, affordable broadband solutions to businesses of all sizes. We offer configurable voice, data, networking and hosting solutions that enable businesses to select the right combination of bandwidth and services to maximize productivity. Through a single broadband connection over our private network, we deliver superior quality voice and premium data speeds for less than you ever dreamed.

### ADVANCED NETWORK

Our tailored solutions are delivered over our private, facilities-based Metro Ethernet Network. We bypass the legacy architecture of the phone companies and connect directly to all the buildings we serve. We handoff a scalable, Ethernet based interface to our customers thus eliminating the need for complex network equipment that is required with outdated phone company services. This advanced network allows us to offer all the data and communication services businesses have come to expect but with configuration options and price points that are truly unexpected.

### CONFIGURABLE SERVICES

At WiLine, we believe in personalized service and customized solutions. We know your needs and desires are unique, so we let you configure the broadband package that make the most sense for your business. Our services are delivered over a fast and flexible converged broadband connection so your business can utilize every byte to enhance your productivity. We offer bandwidth in 1 Mbps increments, starting at 1 Mbps and going all the way up to 1 Gbps, enabling you to consume exactly what is needed to manage your business. Service activation is quick and hassle-free, getting you up and running in as little as five days in buildings that are on the WiLine network. And best of all, upgrading your access speed is as simple as picking up the phone.

### PERSONALIZED SUPPORT

We offer an industry-leading Service Level Agreement to ensure you receive the highest availability and throughput with the lowest latency and packet loss on both our network and the last mile. Our customer support team stands behind our Service Level Agreement, available 24 hours a day seven days a week, providing the personalized attention that you deserve.

## WiLine Difference

### Significant Savings

Save money with WiLine. Combine voice and data for a typical savings of 25% or more on your current monthly bill.

### Maximum Productivity

Pick the speed you need from 1 Mbps to 1 Gbps. Maximize every byte for your business.

### Future-Ready

Upgrade with ease - 1 Mbps at a time, with a simple phone call to WiLine.

### Predictable Costs

Pick your package, know your price. No hidden fees, just unbeatable savings.

### Efficient Network Management

Converged broadband network is simple to manage. Our SLA ensures 100% throughput and 99.999% availability.

### Hassle-Free Installation

Connection is made to your existing equipment so making the switch is fast and easy.

### Reliable Support

24 x 7 support is always available to assist should a service need arise.

## INTERNET ACCESS

Scalable broadband – affordable prices

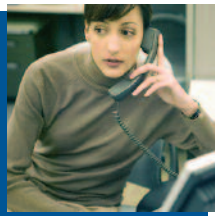

Select the connection speed you need from 1 Mbps to 1 Gbps and see the difference a dedicated, broadband connection makes to your productivity. You won't find a more affordable and flexible way to stay connected.

With WiLine Internet Access you receive symmetrical upload and download speeds, industry-leading service levels and the easiest upgrade path around – all for a fraction of the cost of a traditional T-1. Service installation takes days instead of weeks or months in buildings served by WiLine's network. And with WiLine Internet Access, getting online is as simple as plugging in a standard Ethernet cable.

## BUSINESS VOICE

Savings to talk about

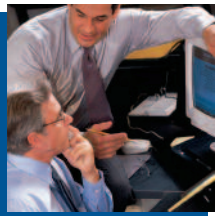

WiLine can help you stay connected for less than you expect. Communicate around the corner or around the globe with our local, long distance and international service plans. WiLine Business Voice delivers dial tone to your existing PBX or Key System over our converged broadband network. Because your connection is digital, you get a technology upgrade without expensive equipment changes or disruptions to service. You

can keep your existing phone number(s) and we'll even manage the number porting for you, making the transition seamless. And when your business grows, we make it easy to add business lines without costly install fees.

WiLine Business Voice includes all the standard calling features you have come to expect but at a quality of service and savings that is unexpected. Our standard unlimited local and network-to-network calling plans save you money every time you dial. And with our optional unlimited long distance plan, you can count on a fixed, low monthly cost.

## PRIVATE NETWORK

Dedicated data connections

Send information quickly and securely from one office to another with WiLine Private Network. Our high bandwidth service gives you the confidence to transmit voice, data and multimedia files at high speeds from 1 Mbps to 1 Gbps through a single, dedicated connection. It's a fast, simple and secure way to communicate directly with other locations on the WiLine network for voice, data, streaming video and more.

## EMAIL & WEB HOSTING

On the Web for less

Whether you want to build a Web presence or enhance your current situation, WiLine helps you get up and running quickly on a reliable platform with low monthly costs. We provide an easy-to-use Web-based interface for simple setup and ongoing management so you can focus on running your business instead of your Web site. Our hosting plans feature gigabytes of disk space and unlimited POP3 email accounts along with online reporting and security.

## WiLine Customers Say It Best

### *Speed, Speed & More Speed...*

*"It's all about speed for us. Our engineers send large CAD files over the Internet so we need a fast, consistent connection. Before WiLine, we had DSL and our connection would time out even before the files were sent, rendering the service useless. Our other option was to upgrade to a T-1 line but that was too expensive and a bit more than we needed. WiLine provided the perfect solution. We get the exact speed we need at a price we can afford. And, we know that down the road, as our business grows, WiLine can easily turn up the speed for us, ensuring we maintain a high level of productivity inside the company."*
